

### Something for every room

Boston Art has many years of experience in successfully helping clients acquire art for residential settings ranging from small urban apartments to spacious suburban homes. The extensive holdings in our gallery and the breadth of our diverse network of artists and art resources enable us to provide fitting and beautiful works for every space and in any style—from traditional oil paintings to striking contemporary sculptures. With in-house framing and installation services and thousands of works to choose from, we give residential clients an unparalleled combination of choice, service, and value.

## Make yourself at home

We care deeply about finding artwork that not only makes a great impression on guests, but also complements its setting and your taste. This exciting, collaborative spirit—which forms the core of our approach to art acquisition for all our clients—extends to our programs for private collectors. We will work with you and your interior designer to develop a personalized collection that reflects both your style and the character of your space. Our consultants bring an intuitive sense to the process with incomparable access to the art world and our inclusive in-house services. The resulting art collection provides visual interest and delight for years.
